

WIMS'18

June 25–27, 2018
Novi Sad, Serbia

8th International Conference on Web Intelligence, Mining and Semantics Call for Papers

Web Site <https://wims2018.pmf.uns.ac.rs/>
Proceedings ACM International Conference Proceedings Series (ICPS)
Best papers will be selected for special issues of reputable international journals

WIMS is a series of peer-reviewed International Computer Science conferences. It is a forum for researchers and practitioners to present their state-of-the-art results in building Intelligent Web, to examine performance characteristics of various approaches in Web-based intelligent information technology, and to cross-fertilize their ideas on the development of Web-based intelligent information management solutions across different domains.

Organizers

WIMS'2018 is organized under the auspices of the Department of Mathematics and Informatics, Faculty of Sciences, University of Novi Sad, Serbia.

WIMS Conferences Chair

Rajendra Akerkar, *Western Norway Research Institute, Norway*

General Chair

Mirjana Ivanović, *University of Novi Sad, Serbia*

General Co-Chair

Sang-Wook Kim, *Hanyang University, Korea*

Program Committee Co-Chairs

Yannis Manolopoulos, *Aristotle University of Thessaloniki, Greece*

Riccardo Rosati, *Sapienza Università di Roma, Italy*

Workshop & Tutorial Chair

Costin Bădică, *University of Craiova, Romania*

Workshop & Tutorial Co-Chairs

Miloš Radovanović, *University of Novi Sad, Serbia*

Miloš Savić, *University of Novi Sad, Serbia*

Important Dates

February 21, 2018	Paper submission
February 15, 2018	Submission of workshop, tutorial and demonstrations proposals
February 25, 2018	Notification of acceptance for workshops/tutorials/demonstrations
April 18, 2018	Notification of acceptance for papers/posters
May 15, 2018	Camera-ready versions of accepted papers, posters, workshop/tutorial/demonstration papers
May 15, 2018	Author registration and registration fee payment deadline
June 25-27, 2018	Conference

WIMS solicits regular and work-in-progress research, discussion papers and industry experience report papers in related fields. Papers exploring new directions or areas are also welcome. In particular but not exclusively the submissions within the following major areas are relevant:

- Scalable Web and Data Architectures and Infrastructures
- Web Intelligence
- Web Mining, Information and Knowledge Extraction
- Web Semantics and Reasoning
- WIMS Applications
- Evaluation and Validation of WIMS Technologies and Applications

For more details please visit
<https://wims2018.pmf.uns.ac.rs/cfp.php>

Submission Types

Four types of submissions are solicited for the main conference:

1. Regular research papers (12 ACM pages)
2. Short research papers (6 ACM pages)
3. Discussion, survey, or problem analysis papers (12 ACM pages)
4. Posters (4 ACM pages)

For more details about submission types and submission instructions please visit
<https://wims2018.pmf.uns.ac.rs/sub.php>

Publications

Accepted papers/tutorials/posters will be published by ACM and disseminated through the ACM Digital Library through the International Conference Proceedings Series (ICPS). A selection of the best WIMS'2018 papers will be invited to be revised and extended for the post-conference publication in special issues of internationally recognized journals.

Workshops, Tutorials and Demonstrations

WIMS traditionally hosts a small number of workshops, tutorials and demonstrations on the topics related to the scope of the conference series.
